Fin (Exp C)

The proposal relates to the electrification of Section officer's quarters at Mangalore at an estimated cost of Rs.525/-. It is stated in support of the proposal that as the daytime is mostly spent in supervising work, inspections and routine office work, the section officer has to attend to the preparation of plans estimates etc., during the night time and that with the dim kerosene light it is not possible for him to do such work at home. But this consideration will apply to all section officers' quarters, which have not been electrified. The present policy of Government is to defer electrification schemes in both residential and non-residential buildings in view of the high cost of labour and materials - Vide G.O.No.2967-P.W., dated 1-10-1947. The Government however, sanction individual cases on their merits, if absolutely necessary and electrification of residential quarters is not sanctioned with the same latitude as electrification of non-residential buildings. ~~[illegible]~~ Recently the Government declined to sanction electrification in the case of ~~[illegible]~~ residential buildings at the Agricultural college Estate, Coimbatore, quarters of certain Forest officers ~~in~~ in the South Kanara at, and quarters ~~of~~ some officers of the Engineering college at Anantapur. In G.O.No.316, Fin., dated 31-3-1949 the Government have stressed the need for effecting all possible economies in expenditure on works as well as on other items. In the circumstances, this department may advise against the proposal.
